NEUTRIK®

When it comes to eSports, Neutrik's robust, locking connectors and cabling products will keep you in the game. With products providing high impact, flexible, and scalable solutions from local and regional competitions to national events. Neutrik's ease-of-use and reliability has made it the world's most recommended AV connector brand. Creating the best gaming experience doesn't end with the fastest computer, graphics card, or video display, using the best connectivity ensures gaming performance at the highest speeds with the lowest latency. Let Neutrik help you create the most memorable experiences for your eSports applications.

Dante Interface

RUGGEDIZED AND LOCKING CONNECTIONS

Inside the Tech Room or Data Center

- Locking and fully protected CAT5, CAT6, and CAT6A patching solutions with etherCON connectors
- Multiple media connector options for connecting and patching data, video, and audio signals
- Fiber optic cables in densities from 2 to 24 fibers in a single cable

Gaming Stage and Competition Areas

- Locking and ruggedized versions of HDMI, USB, and Ethernet
- Video walls, displays, and lighting
 - powerCON®** for AC power
 - etherCON®** RJ45 connectors rated up to CAT6A
 - XLR 5-pin connectors for DMX communications
- Speaker arrays and PA sound reinforcement
 - speakON®** speaker connectors in 2, 4, and 8-pole varieties
 - XLR 3-pin connectors with application specific options including RFI and EMI protection
 - Dante® line and mic-level adapters for IP-based networked audio
 - Power-over-Ethernet power supply to power compatible network devices
- **opticalCON® DRAGONFLY** fiber optic cable solution for cameras and SMPTE signals

In the Control Room

- Multi-pin circular connectors for everything from IFB and comms to equipment control interfaces
- 3G/SDI and 12G UHD BNC connectors that exceed current SMPTE requirements and provide routing for video signals as high as 8K
- High-density audio patch panels with selectable normalizing options to route sound sources to and from the mixing desk
- Ruggedized fiber solutions for connections from the venue to outside broadcast (OB trucks)

To facilitate Internet, Streaming, and Data Services

- High-speed, high-bandwidth connector and cabling solutions, providing reliable, low-latency connectivity for streaming and content distribution
- Scalable and configurable to meet viewership capacities for millions of subscribers
- Both onsite ruggedized products and network operating center patching versions are available.

At the Production Facility

- Post event editing and program distribution
- Centralized broadcast operations
- Studio infrastructure from microphones to lighting
